

## Contract Physician For Westerly

Rumor that One May Come from New York—Baptists to Unite in State Evangelistic Movement—Collins-Wright Case in Third District Court—Death of Thomas Welsh, Formerly of Norwich.

Westerly Baptists are interested in the proposed evangelistic movement of all the Baptist churches in Rhode Island, whether Free Will or Close Communion. It is planned to have a ten days' series of meetings in all the churches, commencing outside the city. Four periods of service are to be arranged, from Feb. 2 to 11, Feb. 15 to 24, March 2 to 11, and March 15 to 24. Various preachers in the state are to be used for the meetings and assigned to the churches other than their own, and the churches to which they are assigned will assume their care and transportation. It is planned to have the local clergyman at his home church while the services are in progress to assist the preacher assigned, and as soon as the notices of acceptance by the several churches are received, the committee will make the assignments.

The clergyman say that no such religious movement as this has ever before been attempted in Rhode Island. The conduct of the meetings will rest with local committees. It is considered a great advance step to have the Baptist sub-division working in harmony in this proposed evangelistic movement.

Thomas Welsh, employed as stone-outter at the Smith Granite company plant for many years, later employed in the street department, died suddenly Monday morning at his home in Garden street. Mr. Welsh had been in failing health for the past three years, yet he seemed in customary health up to a short time before his death. He is survived by one daughter, Mrs. William Shea, Mrs. Welsh having died about four years ago. Mr. Welsh was 62 years of age. Before coming to Westerly he resided in Norwich, and was buried in St. Mary's cemetery, Greenville.

Frank T. Saunders, who declared some time ago that he would drive his pair of oxen from Westerly to New York, starting Tuesday, and cover the distance in twenty days did not surprise his acquaintances when he later announced the abandonment of the proposed trip. Mr. Saunders and his oxen posed for pictures that were reproduced in metropolitan papers, and gained almost as much notoriety as if the trip was actually made. Although the trip was actually made, the oxen posed for pictures that were reproduced in metropolitan papers, and gained almost as much notoriety as if the trip was actually made. Although the trip was actually made, the oxen posed for pictures that were reproduced in metropolitan papers, and gained almost as much notoriety as if the trip was actually made.

It is probable that at an early date a brick camp of Westerly will be fully armed and equipped, in common with all camps of United Spanish War Veterans. George W. Newton of Hartford, commander of the organization, has been in Washington in advocacy of equipping the Spanish War Veterans with discarded United States army rifles. A favorable bill from the committee on military affairs has been reported by Senator Bulkeley of Connecticut.

The industrial insurance companies doing business in Westerly, and some of the fraternal societies, are planning to have a physician come to town who will supply their medical wants on contract, none of the local physicians being available, for as members of the Westerly Medical society they have received the benefit of the local system, and come from Providence Saturday to take the place, but when he learned the local conditions he declined to serve. It is said that a doctor from New York will arrive this week and serve under contract.

After the local physicians declined to serve fraternal societies and insurance companies at reduced rates, Dr. Percy A. Senior was engaged, but has since refused himself of giving professional service by contract, so a successor is being sought.

In the Third district court Monday

That's what WASHBURN-CROSBY CO. do in milling GOLD MEDAL FLOUR.  
Its pure and cleanly.

**WASHBURN-CROSBY'S GOLD MEDAL FLOUR**  
THE VERY HIGHEST QUALITY

## ITALIAN SURVIVORS

Reach Waterbury, Coming to Kinsfolk—Nearly Crazy by Terrible Experiences.

The first grief-stricken arrivals to reach Waterbury from the earthquake zone of southern Italy came to Waterbury Friday. They are Giuseppe Controvone, his wife and three children, Giuseppe Controvone and Joseph Brino. Girola and his family left Messina, Italy, Dec. 28, at midnight, for Palermo and Naples, where they met Giuseppe Controvone, a fellow townsman, who had lost all in the ruins. Fortunately they had enough funds to take them to this country and having friends on Canal street, Waterbury, they took passage upon the steamer Republic and reached Waterbury Friday. Joseph Bruno took passage on the steamer Republic and reached Waterbury the same day.

Their tales of suffering they saw among the ruins, the crash of falling buildings, the walls of the wounded and dying and the insane mutterings of those who had lost loved ones while obliged to look on in helpless sorrow were pitiful in the extreme. His friends bade the reporter of the Waterbury Republican and an interested party to go away. They said the man and his family were not strong enough to stand a rehearsal of the scenes which nearly drove them frantic.

**NEW DUCK**  
Bred by Stamford Man—Will Be Easy to Carve.

Patent persons who at many a festival board have carved the succulent but elusive water fowl were much interested, says the Stamford Bulletin, in a breastboneless duck which was placed on exhibition at the Bridgeport poultry show by C. A. Wintzner of Brooklawn. Through careful culture Wintzner has succeeded in breeding a duck which is entirely innocent of breastbone. As everybody who has ever tried to carve a duck knows, it has been the bane of the hostess, the solution of the duck that has presented most difficulties to the man at the head of the table.

The duck, which the poultry show in which the new breed of ducks was on exhibition was surrounded by lovers of duck, who in the near future these fanciers said they hoped that the widespread consumption of ducks divided by Wintzner would result in making the carving of duck so easy that hereafter persons would struggle for the honor of wielding the knife rather than trying to avoid that post of honor.

**INDUSTRIAL SCHOOL**  
Reports Busy Year—Many Girls Cared For.

The report of the Connecticut Industrial school for girls for the two years ended September 30, 1908, which has been made to the governor, shows that since January 1, 1907, there have been received at the school 1,853 girls. Deducting the number dismissed, 3,062, leaves the number remaining at the school at the close of the year, 1,191. The number in the school remains about the same, there being 248 on October 1, 1908, and 272 on October 1, 1907. The whole number under care for the two years was 342 and the number placed out 108.

**DRUGGIST HALLORAN**  
Announces His Withdrawal from the New Britain Druggists' Association.

Says the New Britain Herald: James R. Halloran announced today that he has tendered his resignation to the New Britain drug association and that his resignation has been in the hands of President Crowell of the association for two or three weeks. Mr. Halloran states that his withdrawal from the association is not due to the New Britain drug association the city has violated the rules by advertising a plan to give away, but because he does feel that the rules are being violated by other individuals in giving discounts to nurses and on account of recent friction in regard to competitive bids which were submitted to the city for its anti-toxin supplies.

**Officers of Christian Army Married.**  
Major Mary Fielding and Adjutant Walter Lament, two officers of the Christian Army at Fair Haven, were united in marriage by Clerk Bertram Hughes at the city hall this week.

**Waterbury's Big Dam.**  
The dam for Waterbury's new reservoir is to be of earth with a light concrete core and will be 1,600 feet long, 100 feet high and 500 feet through at the base.

**SCIENCE PREVENTS BALDNESS.**  
The Fatal Germ and Its Remedy Now Facts of Science.

It is the rarest thing in the world for a man to be necessarily bald. No man whose hair is not dead at the roots, need be bald if he will use Newbro's Herpicide, the new scalp antiseptic. Herpicide destroys the germ that cuts the hair off at the root; and cleans the scalp of dandruff and leaves it in a perfectly healthy condition. Mr. Mannett, in the Maryland Hotel, Butte, Mont., was entirely bald. In less than a month Herpicide had removed the enemies of hair growth, and nature did its work by covering his head with thick hair an inch long, and in six weeks he had a normal suit of hair. Sold by leading druggists. Send 30c in stamps for sample to The Herpicide Co., Detroit, Mich.

## Stop That Indigestion!

**Kodol will do it. If it fails it costs you nothing.**  
All forms of Dyspepsia can be traced to Indigestion.

Indigestion hurts in so many different places. There may be simple discomfort in the mouth, stomach or bowels—this is just the beginning. The use of Kodol should be the end.

You may have pains in the head or be attacked by an overpowering sleepiness in the daytime and wakefulness at night.

You may have aches in the joints, trembling in the limbs, bowel troubles, heart palpitation, disordered nerves—even falling hair.

The thing is to keep the digestive apparatus right—then you will be right.

Kodol will do this.

Try it the next time you feel bad from whatever cause. If the trouble comes directly from indigestion, it will be over almost as soon as you have swallowed a spoonful of the liquid. Kodol will tone up the system.

Kodol is a liquid because nothing in dry form can be so combined as to do all that Kodol does. Because it is a liquid, Kodol reaches the spot quickly. Kodol relieves all pain anywhere in the digestive tract, almost instantaneously. Kodol takes care of all undigested food wherever found. It works as Nature does, extracting the nourishment and expelling the refuse so that the body gets all the benefit of every bit of food taken into the mouth.

These are facts. Prove them by a free trial of Kodol.

Kodol is as harmless as it is helpful. There is nothing mysterious about it.

We have perfected a liquid which duplicates as exactly as possible all that Nature supplies for digestion. We called it Kodol and now tell others about its value.

There is nothing like Kodol; nothing but Kodol which will do the work which Kodol does.

Go to your druggist today and get a dollar bottle, and if after using the entire bottle you can honestly say, you have received no benefit from it, return the bottle to the druggist and he will refund your money to you, without question or delay, and we will pay the druggist the price of the bottle purchased by you.

Don't hesitate, every druggist knows our guarantee is good.

This offer applies to the large bottle only, and to but one in a family. The dollar bottle contains 25 times as much as the fifty cent bottle.

Kodol is prepared at the laboratories of E. C. DeWitt & Co., Chicago.

## The Wonderful New ALVEOLAR METHOD Means New and Perfect Teeth Without Troublesome Plates Or Bridges

This new method for restoring teeth is known as the ALVEOLAR METHOD, which, briefly speaking, means the replacing of missing teeth where there are two or more teeth left in the jaw to work upon, by PLACING THE NEW TEETH ON THE ALVEOLAR RIDGE AND GUMS WITHOUT CUTTING OR BORING INTO THE GUMS OR PERFORMING ANYTHING IN THE LINE OF A SURGICAL OPERATION.

The Alveolar Method is in no sense implantation, the main object being to distribute the strain of mastication upon the alveolar ridge (bony portion of the mouth covered by the gums), and the remaining natural teeth instead of wholly upon the pier or foundation teeth as in ordinary bridge-work.

To illustrate: Ordinary bridge-work is practically a structure built over a chasm (space left vacant by the removal of teeth), a suspension bridge higher in the middle than at either end and supported by piers (the teeth) at either end, which are naturally subjected to a terrific strain in mastication.

Alveolar work has for its foundation the solid alveolar ridge, THEREFORE THE STRAIN COMES AS NEAR AS POSSIBLE JUST WHERE NATURE INTENDED IT TO BE—AND EVENLY DISTRIBUTED.

If your teeth are in a decadent condition, if former dental work is now proving unsatisfactory, if you are annoyed and suffer with cumbersome and tortuous plates or defective bridges, come in and investigate this wonderful new method, the perfecting of which has marked a new and important epoch in the practice of dental surgery.

THIS WONDERFUL WORK IS SIMPLY AND QUICKLY DONE AND IS ABSOLUTELY PAINLESS.

ACT AT ONCE, TODAY, NOW. On your action today depends whether you will have sound teeth and perfect health tomorrow or decayed teeth and deranged digestion. For your health's sake don't put it off one day longer, but COME IN AND HAVE YOUR TEETH EXAMINED FREE TODAY.

Open from 9 till 8 and Saturdays from 10 till 2.

"Dignity is What We Use To Conceal Our Ignorance"

is Albert Hubbard's definition of the word dignity. Unquestionably Albert is correct, and every thinking person will agree with him.

Think of the people with dignity and count those having it naturally. They have it naturally, combined with ability, is a great success in life. Those with assumed dignity are—well, they are understood and discounted by the public.

We've no dignity, natural or assumed, and if it is used as attempted by us the public would discount it. Let the public estimate us correctly; give us credit for a thorough knowledge of the photograph business; for doing work at reasonable prices. Years of experience in this business exclusively entitles us to it.

## DENTISTRY

Teeth Without a Plate  
is the greatest boon of modern times. I wish you could understand the difference between having teeth with a plate and teeth without a plate. One is firm, comfortable and lasts a lifetime; the other covers the roof of your mouth, destroys the best part of the taste. One never falls down; the other often does.

Where it is necessary to wear a plate, DR. SYDLEMAN will make you one that will fit.
